## THERMODRAIN - DRAIN WATER HEAT RECOVERY UNIT NEW HOMEOWNER INFORMATION

**Congratulations!**

Your new home comes equipped with a ThermoDrain, drain water heat recovery unit.

The comfort of almost endless hot water is here! Heat energy recovered by the **ThermoDrain™** will nearly triple the capacity of a water tank and increase the water flow of a tankless hot water heater. Increased energy costs requires that we stop wasting precious heat down the drain. The **ThermoDrain™** will save between 20% and 45% on your hot water heating year after year.

The **ThermoDrain™** heat recovery unit is composed of a copper drain section around which a copper pipe is moulded and wound. As hot water drains down the central copper pipe, an important heat transfer occurs, thereby preheating the cold water circulating in the outer coil. This incoming cold water may be preheated by more than 15 degrees Celsius before being used.

When you save energy, you save money and lessen your impact on the environment. For every **ThermoDrain™** unit installed, you are making the earth greener by reducing your green house gas emissions by up to 1 ton per year. The **ThermoDrain™** is a quality built unit that is CSA certified to meet the highest standards in safety and performance. The **ThermoDrain™** comes with a 10 year warranty. The utmost care has been taken during the manufacturing and installation of your **ThermoDrain™**. Should you encounter any issues or require assistance with regards to the performance of your home Drain Water Heat Recovery unit, please contact us at 1-888-881-7693.

### INCREASED COMFORT

3x more hot water on the same tank  
Increase flow rate on tankless water heaters

### ZERO MAINTENANCE

No maintenance required and 10 year warranty

### SAVE MONEY

Save up to 40% on hot water bills

### LOWER ENERGY USAGE

Safety certified and efficiency verified

### BEST FOR THE ENVIRONMENT

Reduce carbon footprint, 100% recyclable

EcolInnovation Technologies Inc. takes great care in the design and delivery of its products. When the product is used for its intended purpose (standard residential/commercial plumbing system operating temperature and pressures, the use of non-caustic or corrosive or high mineral content drain water) the manufacturer offers a limited non-transferable warranty of ten (10) years on all products against manufacture defects from date of purchase.

The accessories manufactured by a third party and supplied with the **ThermoDrain™** are covered by their respective manufacturer warranties and are not covered by the above EcolInnovation Technologies Inc. warranty. EcolInnovation Technologies inc. assumes no responsibility with regards to these components.

If, during the warranty period, a defect due to manufacturing or workmanship occurs that is covered by this warranty, EcolInnovation Technologies inc. will proceed, entirely at its discretion, with the repair or replacement of the defective unit. Since the installation and use of the **ThermoDrain™** is outside of the control of EcolInnovation Technologies Inc., no warranty is offered by the manufacturer for problems resulting from installation. It is the responsibility of the purchaser to properly select the product and to ensure that the product and installation procedures conform to local laws and codes in effect.

In no case is EcolInnovation Technologies Inc. responsible for prejudice to material, direct or indirect or as an accessory to other damages and/or expenses accrued, even if foreseeable, and even where resulting from the confirmed failure or the apparent or defect known by the purchaser, of all products or accessories distributed or sold by EcolInnovation Technologies Inc. In no case is EcolInnovation Technologies Inc. responsible for premature wear of its products due to the properties of the products used in conjunction with its products. It is the purchaser's responsibility to ensure that the products used in conjunction with the **ThermoDrain™** are compatible with its specified intended design and use.

The warranty in this document is non-transferable. The warranty will not be honored if the original serial number assigned by EcolInnovation Technologies Inc. is not legible or has been removed or has worn away with time. EcolInnovation Technologies does not offer any warranty on the optional components, other than those installed during manufacture of the **ThermoDrain™**.

This warranty does not cover defects caused by damage in transit, abuse, accident, negligence or repairs made by others. In the case of a defective product, contact the reseller in your area where you originally purchased the unit. All repairs or modifications made without the specific written authorization of EcolInnovation Technologies Inc. will render this warranty void without prejudice against EcolInnovation Technologies Inc.
